The Becoming Greater EP is a progressive house/trance release with a feeling and a message meant to hit both the heart and the dance floor hard. The EP is comprised of two primary songs and five tracks total. The first song, “Becoming Greater”, is a melodic trance tune designed to connect the listener to their own inner struggles, empathizing with the battles that we all must feel to overcome our traumas and become something greater than before. The deeper progressive trance remix by DJ Chris Epic is a perfect accent to

this collection for variety on the dance floor. The second song, "Open My Eyes", is a celebration of the moments when we heal and learn new truths about life and what we're capable of as human beings. A Music Video has also been released for this song. Whether you just want more feel-good music for the dance floor, or you want to invoke emotion in the audience, the becoming greater EP has got you covered.

Self-published under the label "Peace 1000".

DJ Shahzad has been pleasing dance floors since 1994, hailing from his original hometown of Denver, CO - USA. He built his reputation on a forward-thinking flavor of trance and house music, inspired by a euro-dance influence that was popular in Europe during the turn of the century, but not so much in the US. As he traveled across North and Central America in the early music and festival scenes of those days, he performed at countless clubs and large events, building memories for thousands that have never been forgotten. To him, music has always been about healing and uniting people around something good, above all else. In 2023 he comes back with the heart and spirit that people remember with his brand-new original track "Midnight Hour" and the mini album "Becoming Greater EP" (5 tracks) with more music planned for 2024.

What People are Saying

This track ("Open My Eyes") is presented in a progressive house style, highlighted by a bright and dynamic arrangement. Catchy melodic hooks, terrific pop sensibility, vocals sound amazing; Infectious energy and a positive message that should have no problem attracting listeners. Stellar work on this one, from top to bottom!
